| PBG+® Care and Cleaning Guide | |
|-------------------------------|---|
| STEP 1 | Common stains: baby oil, ketchup, chocolate, motor oil, olive oil, tea, coffee |
| | Use a clean dry cloth to remove the residue, careful not to spread to surrounding areas. With a clean area of the cloth, wipe the spot again more vigorously, to clean off any remaining residue. If a stain is still visible, proceed to step 2. |
| STEP 2 | Common stains: eye shadow, crayon, grease, permanent felt tip marker, mustard, lipstick, ballpoint pen |
| | Use a straight application of concentrated Formula 409® or Fantastik®. Wipe with a soft clean cloth, rinse with clean water and dry. If stain persists, proceed to step 3. |
| STEP 3 | More difficult stains |
| | Use a cotton cloth soaked in 91% isopropyl (rubbing) alcohol. Wipe carefully to remove residue without spreading to surrounding areas. With a clean area of the cloth, rub the spot vigorously in a circular motion. For highly textured material, use a soft toothbrush to clean valleys and crevices. Wipe with a soft clean cloth, rinse with clean water and dry. |

*Please note that PBG+® is not “stain proof” and indelible inks, particularly those containing certain dyes used in permanent felt tip markers, can leave a shadow if cleaning is delayed beyond 24 hours. Results are best when cleaned within the first 24 hours of staining.

| PERMABLOK3® Care and Cleaning Guide | |
|-------------------------------------|--|
| STEP 1 | Common stains: eye shadow, mascara, grease, felt tip pen, crayon, chocolate, suntan lotion, and hair/body oils* |
| | Remove excess spill with a damp cloth. Use a 1:1 mix of Ivory® liquid soap and water. Rub gently with a soft clean cloth, rinse with clean water and dry. |
| STEP 2 | Common stains: red lipstick |
| | Use a straight application of concentrated cleaners such as Formula 409® or Fantastik® spray cleaner. Rub gently with a soft clean cloth, rinse with clean water and dry. |
| STEP 3 | Common stains: blood, urine, feces, and oil-based paint |
| | Use a 1:1 mix of ammonia and water, or a 1:10 mix of bleach and water. Rub gently with a soft clean cloth, rinse with clean water and dry. |
| STEP 4 | All other tough stains |
| | Use a cotton cloth saturated in a 1:1 mix of isopropyl alcohol and water. Rub gently in a circular motion 10 times. Pat dry and check the results. If the stain persists, use straight alcohol and rub the stain again using the circular motion. Rinse thoroughly with clean water and pat dry. |

*Must be cleaned after each instance of exposure to hair and body oils.

The information published in this care guide refers to the performance of PERMABLOK3® products in specific tests conducted under laboratory conditions. Results may vary under actual conditions.

This information is not a guarantee and does not relieve the user from the responsibility of the proper and safe use of the product and all cleaning agents. The use of certain agents can be harmful to the surface appearance and lifespan of vinyl. Spradling, its agents, and assigns assume no responsibility resulting from the use of such cleaning agents to the vinyl.

Certain clothing and accessory dyes (such as those used on denim jeans) may migrate to lighter colors. This phenomenon is increased by humidity and temperature and is irreversible. Please check compatibility when using this product in combination with painted or varnished surfaces.

Some products may contain chemicals, identified by the State of California as a cause of cancer, birth defects or other reproductive harm at certain exposure levels. Under the California law known as “Prop 65,” certain warnings to consumers in California are required where such products are sold. The presence of such chemicals in coated fabric products, even at extremely low concentrations, can lead to disputes over Prop 65 warning obligations that are very difficult to resolve. If your company intends to introduce Spradling vinyl products into commerce in California, Spradling recommends that you take steps to confirm whether the warning requirements of California’s Prop 65 are applicable to the products in question and whether your company is complying with those warning requirements for the chemicals contained within these products.
